

Mojo Barriers is the leading international supplier of stage barrier systems, setting the industry standards for live events.

Products: The favourite among event organisers looking for a safe, sustainable and cost effective system, Mojo’s continual investment in R&D results in proprietary barriers which are proven, adaptable and reliable. As well as aluminium stage barriers Mojo has a vast portfolio of other innovative products designed for use at outdoor and indoor events including turnstile systems, line up gates, bar barriers and a range of accessories.

THE MOJO
BARRIERS®
www.mojobarriers.com

Both Green and Blue have complete floorplates and braces, ensuring continuous strength of the barrier lines. Furthermore, they can easily be used in combination with other corner-pieces to design wide and smooth shapes. Colours are present on the braces for easy recognition. Typical usage would be around catwalks and thrusts in front of a stage.

Crowd management: Mojo combines these independently tested products with an expansive knowledge of crowd management and crowd control, and experienced project managers. Taking into consideration a wide variety of factors, Mojo creates bespoke configurations designed with audience, guest and crew safety as the highest priority.

Offering an international network, combined with local service, Mojo Barriers has been the trusted global stage barrier resource for over twenty years.

FIXED CORNERS: 45° CORNER

45° POSITIVE CORNER (GREEN)

A fixed corner section of 45° with full floorplate and single brace. ‘Positive’ means moving away from the crowd, usually towards the stage. Nicknamed Green as its colour mark is green for easy recognition on site by anyone installing the equipment.

45° NEGATIVE CORNER (BLUE)

The direct opposite of Green is the fixed negative 45° corner section with a full floorplate, double brace and rear step. ‘Negative’ means moving towards the crowd and thus usually away from the stage. Nicknamed Blue for its blue colour mark for easy recognition.

- Same material specifications and looks similar to the straight barrier
- Fixed angle of 45°
- Positive corner = Green
- Negative corner = Blue
- Both with full floorplate and brace(s)
- Rear step on Blue, not on Green
- Strength contained by floorplate coverage and braces
- Connects to adjoining section by one single bolt
- Also available with black upright
- Use in high crowd pressure areas: ●●●●
